

Fort Erie Volunteer Fire Department is looking for your help!  
November 30, 2018

The Fort Erie Volunteer Fire Department is looking for external stakeholders to help create the Fort Erie Volunteer Fire Department Strategic Plan, which will focus on moral direction and values used to develop a mission statement for the Fire Department. From this important base, future master plans and annual operational plans will be built.

Three volunteers from the community, with or without fire experience, that are able to commit to four meetings that will take place in evenings or weekends beginning in January are needed.

If you would like to be part of a unique process that will help guide the Fire Departments Strategic Plan, please email explaining why you should be chosen as well as what you are able to bring to this process by December 21, 2018 to [emelanson@forterie.ca](mailto:emelanson@forterie.ca).
